Optimal air flow

The aerodynamically optimally matching components allow a steady, low-loss flow profile and a very smooth running.

Super-silent operation

A distinctive feature of the device is its low running noise. This makes it ideal for sleeping rooms and children's rooms.

Compact power

In its compact size, the unit guarantees the highest air throughput and optimal cleaning performance.

Low power consumption

Energy-efficient and extremely smooth motors in combination with flow-optimised fans guarantee low energy consumption.

360° smart filter

Due to the intelligent circular design the whole filter surface is optimally utilised.

Constantly good air quality

The intelligent air sensor system measures odours as well as particles and continuously to control the Air Purifier in automatic mode.

Comfortable filter exchange

A filter exchange display ensures consistently good air quality. The filter cassette can be exchanged in a simple and quick way.

Smartphone App
